GAMINATOR

BENEFITS

GAMINATOR system for interactive clubs has an array of unique benefits:

FLASH TECHNOLOGY!

- Casino is loading as a usual web page.
- Casino leaves no trace on the PC! There's no boot data!
- It's hard to prove copyright violation and gambling business organization, because there's nothing on a client's PC!
- **GAMINATOR** system is not a gaming program and requires no expensive equipment, all you need is PC or Internet terminal (works on **Windows OC** and **Linux**)
- Data transmission is secured by protocols providing safe data processing and storing.
- One of the system's key functions is automatic memorizing of any game combination, including bonuses and free spins. This means that in case of an Internet connection fail or equipment malfunction during the gaming process, player can continue the game from the same place after the fixing works.
- With each new launch, GAMINATOR quickly installs new games and updates the existing ones, which is an automated process.
- Players have access to all games that they need.
- No analogies on the market when it comes to quality and completeness of set.
- Unique game mathematics keeps players interested for a long time. Content mathematics in our game machines has no settings, which keeps great excitement among the players.
- Payout percentage is set to 93%-94%, and stays permanent.
- Return to player comprises 10 per cent from the amount deposited to the game.
